## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-3, 6, 9 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The limitation "writes said frame to a memory location shifted from a top of the next available memory location" is not disclosed in the specification.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being unpatentable over O'Loughlin et al (U.S Patent No 6,185,635).

Regarding claims 1 and 2, O'Loughlin discloses a frame-relay processing device for reassembling a frame-relay frame into an ATM cells, wherein the device received a frame-relay frame and writes the frame to an available memory location (shifted from a top of the next available memory location) in a frame buffer. See col.2 lines 20-30, col.11 lines 25-32.

Regarding claims 3, 6 and 9, O'Loughlin discloses a frame-relay frame transmission circuit for reassembling a frame-relay frame into an asynchronous transfer mode cell comprising:

bit stream processor 103 (frame receiver) for receiving a frame through connection, figure 5;

a memory 140 for storing a receiving frame at a location shifted from the tip of the next available memory location in the frame buffer by said shift size; and

a segmentation and reassembling device for reassembling said frame into said ATM cell. See figure 5, col.11 lines 25-30.

Regarding claims 4, 7 and 10, O'Loughlin discloses a storing of address and path identification (DLCI) for read and writes into the memory. See Col.6, lines 40-50.

Regarding claims 5, 8 and 11, O'Loughlin discloses a received frame is transmitted to direct memory access. See col.2 lines 30-55.

**Conclusion**

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
